Objective

Looking for a position as a software engineer in a progressive organization that enables me to fully utilize my skills. while making a significant and prominent contribution to the success of the company.

Education

- **Zphs nidamanuru**   2019
  SSC
  8.8

- **Vijaya institute of technology for womens**   2022
  Diploma (computer science and engineering)
  77.91%

- **Prasad v potluri Siddhartha institute of technology**   2025
  Btech(computer science and engineering
  75%

Languages

- Telugu
- English

Skills

- Languages: C/C++, python
- Communication skills: Active listening, clear articulation, and the ability to present information effectively.

Certifications

- Infosys SpringBoard certificate in Block Chain
- Certificate of Completion Salesforce

Internships

- Cisco CCNAv7 Training (6 months).
- Celonis Process Minning offered by Celonis foundations, AICTE

- AWS Academy Cloud Architecting,AICTE
- Certificate of Completion Salesforce Developer Virtual Internship

Projects

- **Home Plant Watering System Using Arduino**
  Using Arduino microcontroller checks soil moisturelevel if low, triggering a water pump on untilsensor reaches threshold.
- **Lung cancer detection Using Machine Learning**
  Machine learning enhances lung cancer detection by analyzing medical images with high accuracy. Algorithuns can identify tumors at early stages, often outperforming traditional methods. This early detection improves patient outcomes and treatment success rates, demonstrating the significant potential of AI in medical diagnostics.
- **Cinemood Application Using HTML and CSS**
  Develop a cinemood application with html css Java script based application. Enabling customers to watch streaming Telugu movies, web series,dramas ete.for managing movies and shows with new features.
